Separate paging is given to this Part in order that it may be filed as a separate compilation

PART III—SECTION 2

Notifications and Notices issued by the Patent Office relating to
Patents and Designs

THE PATENT OFFICE

Patents and Designs

Calcutta, the 9th August 1958

Application for Patents

The dates shown in crescent brackets are the dates claimed under Section 78A of the Act.

24th July 1958

- 64743. Diapulse Manufacturing Corporation of America. Athermapeutic apparatus.
- 64744. T. Ning. Improvements in or relating to electric dry batteries. (8th August 1957).
- 64745. Stamicarbon N.V. Process of removing to a large extent thiophenes from aromatic hydrocarbons by a treatment with concentrated sulfuric acid.
- 64746. American Cyanamid Company. Process of preparing N-substituted anilides.
- 64747. American Cyanamid Company. Process of preparing N-substituted anilides.
- 64748. Ciba Limited. Process for the manufacture of pregnadiene compounds.
- 64749. Ciba Limited. New pregnadiene compounds and a process for their manufacture.
- 64750. Ciba Limited. New halogen-pregnenes and a process for their manufacture.
- 64751. Montecatini Societa Generale Per L'Industria Mineraria E Chimica and K. Ziegler. Improved process for the preparation of high molecular weight copolymers. [Addition to No. 59172.]

25th July 1958

- 64752. Jotindra Nath Dutt. Improvements in or relating to double line lock and block system of traffic control for railways and the like.
- 64753. United States Atomic Energy Commission. Uranium-aluminum fuel alloy containing silicon.
- 64754. Hawley Products Company. Process of making felted containers.
- 64755. United States Atomic Energy Commission. Thermonuclear reactor.
- 64756. Imperial Chemical Industries Limited. Esters. (7th August 1957). [Addition to No. 60339.]
- 64757. Imperial Chemical Industries Limited. Polymerisation of ethylenically unsaturated compound. (7th August 1957). [Addition to No. 60378.]
- 64758. Metropolitan-Vickers Electrical Company Limited. Improvements relating to zirconium alloys. (26th July 1957).
- 64759. Toyo Koatsu Industries, Incorporated. Urea synthesis using excess ammonia.

64760. The Carborundum Company. A process for producing silicon carbide bodies.

64761. The Carborundum Company. Method of making refractory bodies.

64762. F. Hoffmann-La Roche & Co. Aktiengesellschaft. Colouring composition.

64763. Farbwerke Hoechst Aktiengesellschaft vormals Meister Lucius & Bruning. Azo-dyestuffs soluble in water and process for their manufacture.

26th July 1958

64764. The Carborundum Company. Carbide-bonded graphite bodies and method of making the same.

64765. N. V. De Bataafsche Petroleum Maatschappij. Apparatus for the separation of liquid particles from a gas.

64766. N. V. De Bataafsche Petroleum Maatschappij. Improvements in or relating to processes and apparatus for the catalytic cracking of hydrocarbon oils. (30th July 1957). [Addition to No. 53847.]

64767. Imperial Chemical Industries Limited. Improvements in or relating to the manufacture of resilient rollers. (9th August 1957).

64768. Commissariat A L'Energie Atomique. Improvements in devices for opening and handling from a distance a container, and in particular an irradiated tube.

64769. Studiengesellschaft Kohle m.b.H. A process for the production of polyethylene with narrow distribution of the molecular weight. (18th July 1958).

29th July 1958

64770. Carona Sahu Co., Private Limited. Improved method of fixing upper band or bands to the sole portion of footwear.

64771. Parijat Paints Manufacturing Company. Improved powder distemper and method of its manufacture.

64772. S. Ponnuswamy. Accidents prevention "APE" No. 2 (accident prevention equipment) for lorries, buses, trucks and other allied heavy road transport vehicles.

64773. Imperial Chemical Industries Limited. Improvement in or relating to the production of synthetic elastomers. (8th August 1957). [Addition to No. 63727.]

64774. Imperial Chemical Industries Limited. Improvements in or relating to the manufacture of resilient rollers. (9th August 1957).

64775. Imperial Chemical Industries Limited. New organic compounds. (12th August 1957).

64776. Imperial Chemical Industries Limited. New compositions of matter. (12th August 1957).

64777. S. Smith & Sons (England) Limited. Improvements in or relating to tubing. (7th August 1957).
64778. The General Electric Company Limited. Improvements in or relating to dynamo electric machines. (31st July 1957).
64779. J. R. Geigy A.-G. Process for the production of new carbostyryl derivatives.
64780. Chas. Pfizer & Co. Inc. Phenoxazine derivatives and preparation thereof.
64781. B. Lichtenstein. An improved frame for use in the packing of goods for transport.
64782. G. Bosio. Basket for the centrifugal spinning of textile fibers and bearing apparatus therefor.
64783. Montecatini Societa Generale Per L'Industria Mineraria E Chimica. Polymeric compositions and a method of preparing them.
64784. F. Hoffmann-La Roche & Co. Aktiengesellschaft. Process for the manufacture of carbamic acid esters.
64785. Union Carbide Corporation. Improved block-resisting polyethylene film compositions.
64786. E. M. Arthur. Improvements in pliers.
64787. National Aluminate Corporation. Preparation of organic lead compounds.
64788. General Mills, Inc. L-arginine-L-glutamate and process for its manufacture. (9th May 1958).
64789. Ciba Limited. Process for the manufacture of new polypeptides.
- 30th July 1958
64790. Eli Lilly and Company. Method of preparing erythromycin esters and the erythromycin esters resulting from said method.
64791. Monsanto Chemical Company. Agricultural procedure (A). (3rd August 1957).
64792. Monsanto Chemical Company. Agricultural procedure (B). (3rd August 1957).
64793. Smith Kline & French Laboratories. Improvements in or relating to stabilized phenothiazine preparations. (3rd April 1958).
64794. Rodi & Wienerberger Aktiengesellschaft. Expanding link bracelet. [Addition to No. 58873.]
64795. Commissariat A. L'Energie Atomique. Improvements in methods of preparing sintered beryllium oxide products. [Addition to No. 57663.]
64796. George Angus & Company Limited and D. G. Turner. Improvements in the production of reinforced endless rubber belts or bands.
64797. T. E. R. Smith and The Colombo Commercial Company Limited. An improved method and device for removing tea leaf from coarse and fibrous substance in dry tea. (9th September 1957).
64798. Svit, narodni podnik. Machine for automatically connecting rubber soles to leather or textile vamps.
64799. Farbwerke Hoechst Aktiengesellschaft vormals Meister Lucius & Bruning. Sulfonyl-ureas and a process for preparing them.
64800. Ciba Limited. Manufacture of allopregnanolone compounds.
64801. Farbwerke Hoechst Aktiengesellschaft vormals Meister Lucius & Bruning. Azo-dyestuffs soluble in water and process for their manufacture.
64802. E. Feidner. Improvements in or relating to structural building units.

Applications Accepted

Notice is hereby given that all persons interested in opposing the grant of patents on any one of the applications referred to below may at any time within four months of the date of this Gazette of India give notice to the Patent Office in the prescribed form No. 6 of the Indian Patents and Designs Rules, 1933 of such opposition.

A limited number of printed copies of the specifications in the following list will be available for sale from the Government of India Book Depot, 8, Hastings Street, Calcutta in due course. The price of each specification is

Rs. 2 (postage extra, if sent out of India). Requisition for the supply of printed specifications should be accompanied by the numbers of specifications as shown in the following list.

If required typed copies of the specification together with copies of drawings, if any, can be supplied by the Patent Office on payment of the necessary charges which may be ascertained on application to the office.

The dates shown in crescent brackets are the dates allowed under Section 78-A of the Act.

58740. Veb Zentrale Entwicklung und Konstruktion Das Elektro-Maschinenbaues. An improved stator for single or multi phase electrical machines and machines employing such stators. Accepted on 24th July 1958.

Square shaped sheet staggered at 45, 30, 22.5 or less, free corners of sheet in every layer are separately stamped and piled up together and separately punched sheet corners receive the same bolt holes, holding slot, riveting holes and airing holes.

59032. Shri Ram Institute for Industrial Research. Improvements in or relating to a means for guiding textile and like materials through the fluidised bed. Accepted on 29th July 1958.

Providing fine jets of fluidising medium between the shaft of the guide roller and the body of the bearing on the side facing the fluidised bed material.

59468. California Research Corporation. Fuel composition. Accepted on 23rd July 1958.

Comprising a predominant portion of a hydrocarbon fuel and a minor portion of certain oil soluble copolymer of monomers.

59481. A. Monforts. Method of heat treatment for web-like goods, particularly textiles, and apparatus for performing the method. Accepted on 29th July 1958.

The web is fed between two machine elements covering it over the entire width and is continuously further advanced with them under gas and liquid tight seal.

59504. General Aniline & Film Corporation. Improvements in reduction of aromatic polynitro compounds. Accepted on 29th July 1958.

By introducing a polynitro compound, as a solution, and hydrogen into a hydrogenation zone in the presence of a hydrogenation catalyst.

59505. United States Steel Corporation. Method and apparatus for proportioning the ingredients of a sinter feed. Accepted on 24th July 1958.

Proportioning the ingredients of a sinter feed comprising feeding ore, additives and hot recycle successively to a travelling conveyor continuously combining the feeding rates of ore and hot recycle.

59578. United States Steel Corporation. Method of, and protective film for, inhibiting oxidation of a tin surface. Accepted on 30th July 1958.

Inhibiting oxidation of tin surface by applying a coating of a compound selected from the group consisting of di phthalate, di hexahydro-phthalate, triethylene glycol di, tetraethylene glycol di, and polymers of polyalkylene glycols or mixtures thereof.

59586. The Permutit Company Ltd. Improvements relating to electrodialysis processes and cells. (22nd February 1956). Accepted on 25th July 1958.

Ions of one sign of first electrolyte are exchanged for ions of same sign but of different species by electrodialysis the new ions entering solution of first electrolyte through barrier selectively permeable to ions of that sign while original ions leave the solution through another such barrier.

59621. United States Steel Corporation. Self-fluxing synthetic iron scrap and method of preparing the same. Accepted on 30th July 1958.

Preparing self-fluxing synthetic scrap iron by partially reducing iron ore fines by treatment with a reducing gas-a fluidized bed agglomerating reduced fines, and coating surface of agglomerate with lime.

59644. Societe Financiere d'Expansion Commerciale et Industrielle S. A. "Sfindex". Improvements in or relating to apparatus for purifying gases from matter suspended therein. Accepted on 29th July 1958.
- Including the steps of compressing the gas and feeding it in compressed state through a electrofilter.*
59647. N. V. De Bataafsche Petroleum Maatschappij. Process for the preparation of a mixture of viscous oil and water for transportation through pipelines, and apparatus and installation therefor. Accepted on 29th July 1958.
- Wherein water in continuous phase is from 25 per cent to 45 per cent by weight of resulting mixture.*
59648. Babcock & Wilcox Limited. Improvements in vapour generators and an improved method of generating vapour. Accepted on 29th July 1958.
- Wherein the fuel gas before combustion is preheated by convection heat exchange with gases flowing from the furnace of the vapour generator.*
59649. Pyrotenax Limited. Improvements in or relating to cable manufacturing apparatus. (5th March 1956). Accepted on 24th July 1958.
- Air escape passage is provided through the striker assembly from interior of cylinder to atmosphere.*
59700. Carmichael and Sons (Worcester) Limited and Margaret Ena Knutsen. Improvements relating to containers for powdered and granular substances and method of discharging such substances from said containers. (21st February 1956). Accepted on 30th July 1958.
- Consisting in agitating the material in the container above outlet and on both sides of the centre line of the material and in introducing air under controlled pressure into container.*
59736. Imperial Chemical Industries Limited. Process for the manufacture of new phthalocyanine compounds. (14th March 1956). Accepted on 24th July 1958.
- Reacting aminophthalocyanine with a triazine.*
59805. National Aluminate Corporation. A method of preventing the foaming and priming of steam generators or boilers. Accepted on 29th July 1958.
- Dispersing in water an addition product of an alkylene triol containing 3 to 6 carbon atoms, propylene oxide and ethylene oxide.*
60279. Ciba Limited. Process for fixing aminoplasts in the wet state on fibrous materials. Accepted on 29th July 1958.
- Wherein there is used as catalyst a compound which is stable in anhydrous state, but is hydrolyzed by water at elevated temperature.*
60545. "SHELL" Research Limited. Lubricating compositions. (22nd May 1956). [Addition to No. 47506.] Accepted on 24th July 1958.
- Comprising a mixture of a liquid ester a polyoxyalkylene and a salt of an aromatic carboxylic acid or of a phenol with a metal of Group II of the Periodic Table.*
60569. Ciba Limited. Manufacture of new phthalazines. Accepted on 29th July 1958.
- Wherein in a 1-x-4-(pyridyl-methyl)-phthalazine, in which x is convertible into the hydrazino group, is so converted in a manner known per se.*
60813. I. D. Glazer. Bottle Carrier Loading Machine. Accepted on 25th July 1958.
- Means for positioning a bottle carrier for engagement with neck portions and means for forcing the carrier over tops of bottles.*
60814. I. D. Glazer. Bottle carrier stripper. Accepted on 25th July 1958.
- Stripping means for engagement with the carrier, and means for imparting relative movement between bottles and carriers.*
60889. Imperial Chemical Industries Limited. Bonding process for polythene to substrates. Accepted on 26th July 1958.
- Interposing vulcanisable blend of rubber and polythene between polythene and substrates.*
61107. Comerio Ercole S.p.A. An automatic device for reversing the rotation of two rollers, especially for use in cloth dyeing machines. Accepted on 25th July 1958.
- Consisting of two mechanical revolution counters which are directly driven by rollers and control the reversal by limit switches and the counters are engaged or released by two engaging levers.*
61189. Glaxo Laboratories Limited. Process for the preparation of 2:4-dibromo-3-keto-11 β -hydroxy allosterooids. (30th July 1956). Accepted on 29th July 1958.
- 3-keto-11- β -hydroxy allosterooid is brominated in a solvent medium reactive with hydrogen bromide.*
61205. Les Usines De Melle. Process for producing diacetone alcohol. Accepted on 29th July 1958.
- By passing acetone on an alkaline condensation catalyst and then maintaining the reaction product out of contact with any condensation catalyst.*
61587. Imperial Chemical Industries Limited. Mixed polyesters. (7th September 1956). Accepted on 29th July 1958.
- Formed by the condensation of glutaric acid and a mixture of 1:6-hexane diol and 1:5 pentane diol.*
61655. Dwijendra Nath Chaudhuri. Improvements in or relating to toys. Accepted on 24th July 1958.
- Toy comprising a wheel provided with an axle and double rail track that can be manipulated on the track.*
61690. Constock Liquid Methane Corporation. Containers for liquefied hydrocarbon gases and the like. Accepted on 25th July 1958.
- A metal shell, a layer of porous insulating material on inner surface of shell and a layer of fluid impervious material supported as a lining by insulating layer.*
61741. Union Carbide Corporation, formerly known as Union Carbide and Carbon Corporation. Leak-resistant dry cell. (6th February 1957). Accepted on 29th July 1958.
- Comprising consumable metal electrode, electrolyte-wet depolarizing mix, insoluble electrode, a fuse of material susceptible to attack by cell exudate and disposed between one of the electrodes and its external terminal, fuse permitting current production and breaking and being destroyed upon contact with cell exudate.*
61906. G. A. M. Petersen. Improvements in earth digging tools. Accepted on 30th July 1958.
- Proximal portion of the tooth has an elongated slot extending forwardly from the proximal end of the tooth and shank provided with holding means.*
62058. Imperial Chemical Industries Limited. Improvements in or relating to rubber compositions. (22nd October 1956). Accepted on 26th July 1958.
- Treating the surface of the rubber composition, before vulcanisation with a complex chromium compound.*
62110. N. V. De Bataafsche Petroleum Maatschappij. Device for the application of a bituminous layer in liquid or semiliquid form to the bottom of a waterway. Accepted on 29th July 1958.
- To the end of a supply pipe is secured a distributing means consisting of a hollow, cylindrical part of which the side opposite the said pipe is provided with an outlet nozzle.*

62237. Universal Winding Company. Apparatus and method of processing stretch yarn and yarns produced thereby. Accepted on 30th July 1958.

Passing raw yarn through tension controlling device, a heater a false twist spindle, around feed rolls, part a static eliminator another heating device and winding on delivery roll.

62447. Riedel & Co. Improvements in or relating to acid baths for producing brilliant copper levelling coatings. Accepted on 30th July 1958.

Bath combines with basic brightening agents in which one or more $=N-C-S(CH_2)_n-X$ groups predominate.

62481. The Director, Haffkine Institute. A process for the preparation of para-nitroacetophenone. Accepted on 25th July 1958.

Wherein para nitro-benzoyl chloride is reacted with acetylacetone and 3-para-nitrobenzoyl-2, 4 pentanedione obtained is heated with aqueous solution of ammonia and ammonium chloride and then with sulphuric acid containing acetic acid.

63100. Safca Aerosol Manufacturing Limited. Improvements relating to atomising apparatus. (18th October 1957). Accepted on 26th July 1958.

Comprising a container having a inwardly extending shoulder to constitute a support for the valve unit and sealing means operatively disposed relative to the valve unit.

63118. Inventa A.G. Fur Forschung Und Patentverwertung. Process for the concentration of sugar solutions. Accepted on 30th July 1958.

Comprising adsorption of sugar onto an anion exchanger, separation of exchanger from solvent and desorption of sugar by means of CO_2 .

63144. Hitachi Ship-building & Engineering Co., Ltd. Liquid circulating means in a penetration tube for the manufacture of pulp. Accepted on 30th July 1958.

Chip is successively treated with a chemical liquid in a penetration tube and in a cooking tube, each consisting of series of reaction tubes.

63287. C. C. Wakefield & Company Limited. Improvements in or relating to lubricant additives. (5th March 1957). Accepted on 25th July 1958.

Additive comprises a mixture of zinc salts of dialkyl thiolthionophosphoric acids.

63602. Chas. Pfizer & Co., Inc. Preparation of sulfonylureas. Accepted on 29th July 1958.

Treating alkali metal or alkaline earth metal salt of arylsulfonamide with N, N-diaryl-N'-mono-substituted urea in inert polar organic solvent medium.

Opposition Proceedings

(1)

The opposition entered by Curt Barth to the grant of a patent on application No. 47858 as notified in Part III, Section 2 of the Gazette of India, dated 4th September 1954, has not been successful. A patent will accordingly be sealed subject to amendment of the specification.

(2)

An opposition has been entered by Montecatini Societe Generale per l'Industria Mineraria e Chimica, to the grant of a patent on application No. 58401 made by Hercules Powder Company Incorporated.

(3)

An opposition has been entered by (1) Barar Beads Manufacturers, (Private) Ltd. (2) Prabhat Beads (3) Lakshmi Glassbeads Works and (4) Hind Glassbeads Works, to the grant of a patent on application No. 61536 made by Pearls and Beads (India).

(4)

The opposition entered by Rodi & Wienenberger Aktiengesellschaft, to the grant of a patent on application No.

51573 made by M. S. Wadke as notified in Part III, Section 2 of the Gazette of India, dated 19th November 1955, has been treated as withdrawn.

(5)

The application for a patent No. 53058 made by The Asiatic Oxygen & Acetylene Co. Ltd., in respect of which an opposition was entered by The Indian Oxygen & Acetylene Co. Ltd. as notified in Part III, Section 2 of the Gazette of India, dated 6th August 1955, has been treated as withdrawn.

(6)

The opposition entered by Rodi & Wienenberger Aktiengesellschaft, to the grant of a patent on application No. 55610 made by M. S. Wadke, as notified in Part III, Section 2 of the Gazette of India, dated 12th January 1957, has been treated as withdrawn.

(7)

The application for a patent No. 56633 made by Olin Mathieson Chemical Corporation, in respect of which an opposition was entered by Bristol Laboratories Inc., as notified in Part III, Section 2 of the Gazette of India, dated 23rd November 1957, has been treated as abandoned.

(8)

An opposition has been entered by (1) Barar Beads Manufacturers (Private) Ltd., (2) Prabhat Beads, (3) Lakshmi Glassbeads Works and (4) Hind Glassbeads Works, to the grant of a patent on application No. 61937 made by Pearls & Beads (India).

Printed Specifications Published

A limited number of printed copies of the undernoted specifications are available for sale from Officer-in-Charge, Government of India, Central Depot, 8, Hastings Street, Calcutta, at two rupees per copy:—

54000. 54733. 54760. 54785. 54795. 54802. 54823. 54828. 54829. 54853. 54966. 54990. 54992. 55199. 55205. 55213. 55302. 55334. 55375. 55650. 55724. 55764. 55870. 55904. 55937. 55952. 56045. 56046. 56088. 56110. 56148. 56150. 56183. 56199. 56233. 56282. 56302. 56322. 56328. 56356. 56403. 56423. 56434. 56501. 56533. 56548. 56600. 56695. 56699. 56707. 56717. 56722. 56751. 56867. 56882. 56899. 56903. 57037. 57052. 57097. 57118. 57226. 57228. 57233. 57345. 57369. 57467. 57469. 57504. 57631. 57643. 57696. 57872.

Patents Sealed

57314. 57394. 57395. 57546. 57573. 58171. 58944. 58945. 59350. 59697. 60120. 60517. 61087. 61487. 61675. 62158.

Registration of Assignments, Licences Etc.

Assignments, licences or other transactions affecting the interests of the original patentees have been registered in the following cases. The number of each case is followed by the names of the parties claiming interest:—

48416—Bengal Scientific and Technical Works (Private) Limited.

Renewal Fees Paid

25538. 25579. 28981. 31578. 32942. 32943. 32957. 33025. 33140. 33442. 34881. 35379. 35453. 35480. 35483. 35697. 35786. 35787. 35788. 36427. 36428. 37267. 37306. 37946. 37947. 37949. 37998. 38022. 38028. 38092. 38179. 38180. 38984. 38985. 38986. 39056. 39625. 39883. 40050. 40051. 40122. 40166. 40207. 40225. 40226. 40453. 40711. 40822. 41777. 41778. 41809. 41810. 41983. 41987. 41988. 42099. 42392. 42550. 42832. 43544. 43555. 43611. 43625. 43626. 43631. 43899. 43925. 43973. 44139. 44341. 44707. 45589. 45624. 45632. 45686. 45693. 45708. 45742. 45750. 45799. 45814. 45845. 45869. 45925. 45926. 45927. 45929. 45970. 46042. 46085. 46107. 46115. 46154. 46644. 46647. 47805. 47824. 47830. 47835. 47855. 47863. 47870. 47936. 47943. 47950. 47951. 48049. 48067. 48069. 48070. 48074. 48106. 48170. 48183. 48292. 48401. 49089. 49261. 49262. 49987. 50041. 50048. 50051. 50099. 50102. 50154. 50169. 50232. 50268. 50269. 50413. 50437. 50494. 50598. 50815. 50877. 51192. 51722. 52059. 52295. 52367. 52368. 52469. 52479. 52494. 52499. 52555. 52561. 52570. 52575. 52584. 52669. 52690. 52764. 52780. 52871. 52882. 52887. 52912. 52914. 52918. 52950. 52958. 53007. 54188. 54296. 54981. 55259. 55367. 55403. 55674. 55855. 56100.

Cessation of Patents
